Call No. 1/ 2022

Type/ Limited Reverse Auction

The tender for supplying (High Purity Germanium Detector) and its necessities for the department of physics at University of Raparin/ College of Science.

Presidency of University of Raparin/ Directorate of Legal Affairs/ Room of General Contracts is inviting local and foreign companies who hold a working license in the field of the above announced project for a limited reverse auctioning. Tenderers can find information about the details of the project and all the clauses of the outlay attached to the announcement in four pages.

If interested, send a hard copy of your company's (CV) to Directorate of Legal Affairs/ General Contracts on the ground floor of Presidency Building, or email us a scanned copy of the CV in requirement no. (4).

CVs are accepted from (8/2/2022) to (16/2/2022), after which date applications are not accepted. The CVs will be evaluated on (20/2/2022); all applicants will afterwards be notified about the result of their applications.

CV requirements:

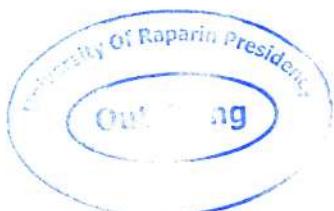

- 1- Participating companies should specialize in or have a working license in Kurdistan or in KRG in the field -copy of the license should be attached to the CV.
- 2- Participating companies should prove that they have successfully implemented such projects before.
